Diá-logos, the Journal of Education of the Universidad Don Bosco of El Salvador, aims to contribute and share with the national and international educational community its reflections, experiences and research results in the educational area. Diá-logos addresses different educational topics, including pedagogy, curriculum, evaluation, technology, educational policies and management. Diá-logos is aimed at educators at all levels, public officials in the field of education, researchers in the field of education, teacher trainers and students in teacher training.

Diá-logos publishes original, unpublished and current research papers in Spanish, English and Portuguese, peer-reviewed and double-blinded.

Diá-logos is edited by the Editorial Universidad Don Bosco, through the Distance Education Department and the Institute for Pedagogical Research and Training.
